

ON-BOARD FARE SYSTEM

# CardQuest<sup>®</sup> Compact Fare Device

The Genfare CardQuest maximizes convenience with the integration of flexible fare media options into either a stand-alone device or in cooperation with a full fleet of fareboxes.

The CardQuest delivers reliability by providing a wide variety of traditional and electronic fare media options for passengers and transit agency operators. CardQuest can serve a variety of transit lines and systems with its unique and flexible mounting options and large selection of adaptable fare media.

We are in the business of helping people use and manage public transportation systems. We have and will continue to deliver the technology leadership and product innovation you would expect from the company that helped create the industry.

### Highlights:

- Uses proven Genfare technology, including TRiM<sup>®</sup> ticket processing units, high speed infrared data probing and data system.
- CardQuest can be adapted to a variety of transit systems based on the agency's needs, including bus, BRT, light rail and paratransit.
- Issues tickets or receipts from internal cassette.
- Backlit LCD screen is easy to view for passenger convenience.
- Compact, portable design which operates as a stand-alone device or in cooperation with a fleet of fareboxes.
- Modular design allows for easy maintenance.

## RESPONDING TO RIDER AND AGENCY NEEDS

### Why CardQuest?

- Configurable fare media allows for the use of smart cards and magnetics in a device that validates, deducts fares and prints and issues tickets.
- Fare structure configuration allows for a variety of fare media options based on agency needs.
- The OCU creates ease of use for bus operators and improves boarding speeds.
- CardQuest provides communication through audible and visual messages to aid patrons while boarding.

CardQuest is available in both rear and side mounting options.
