OFF-BOARD FARE SYSTEM

Versatile Printing Encoding Machine

The PEM allows each agency to build a Point of Sale (POS) device to meet your needs based on fare structure and issuance criteria.

The Printing Encoding Machine is a versatile stand-alone system designed to assist off-board sales at designated transit agency locations. The customizable system comes standard with the user friendly, color touch screen Printer Encoder Module. The system is customizable with a smart card encoder, limited use smart card or magnetic dispenser and cash drawer.

The customized encoding machine's compact size allows agencies to perform a wide range of activities based upon transit agency needs and operators' request.

Highlights:

- Reliable service provided by industrial grade computer, proven smart card and magnetic processors.
- Create, issue, recharge and query fare media.
- Supports individual card issuance and batch mode.
- Password-protected login for security.
- Roll-fed printer provides receipts and sales reports.

BASE MODULE

Weight:	26 lbs
Depth:	13"
Width:	17.625"
Height:	15" standard tilt, 17" full tilt
Angle:	360° monitor swivel

RESPONDING TO RIDER AND AGENCY NEEDS

Why a Printing Encoding Machine?

- Versatile system designed for internal and authorized customer service agents that sell, upgrade, replenish and query fare media.
- Equipped for batch issuance of multiple fare media cards such as smart cards and magnetics.
- Software adaptability for new and future products.
- Color touch screen for ease of use.

CASH DRAWER (OPTIONAL)

Weight:	18.76 lbs
Depth:	16.75" drawer closed
	26.75" drawer fully open
Width:	16"
Height:	4-5/8"

SMART CARD ENCODER (OPTIONAL)

Weight:	7.05 oz.
Depth:	4"
Width:	3.75"
Height:	4.9"
Angle:	45°

DISPENSER (OPTIONAL)

Weight:	35 lbs. fully loaded with tickets
Depth:	16.15"
Width:	10"
Height:	12"
Angle:	145° ticket door opening

Sales Functions:

- Initialize new card
- Recharge existing card
- Record type of payment
- Record check number and authorization codes
- Review card data
- Batch encoding
- Void cards
- Replace lost cards

Service and Configuration:

- System status
- Configuration settings
- Create badges
- Print reports

Communications:

- Ethernet
- USB memory stick
