

REVENUE COLLECTION EQUIPMENT

DUALPORT Vaults

DUALPORT revenue collection equipment is designed for security and reliability without compromise.

The Genfare DUALPORT revenue collection system keeps collected money secure and untouched after the passenger deposits it in the farebox, through transport in an armored truck, until accounting or treasury personnel handle it in the counting room. The system consists of a cashbox receiver mounted on either a stationary or a mobile vault unit.

Both vaults feature an interlock system that protects collected revenues from theft by requiring a secure sequence of events and conditions.

With this sequence, the receiver module accepts the locked cashbox, and, when secure, mechanically opens the cashbox (inside the receiver). It then empties the contents into a bin below. It keeps coins separate from bills in the bin and then closes and locks the cashbox - allowing it to be returned to the farebox.

Highlights:

- Heavy-duty construction engineered for maximum durability with minimum maintenance.
- Employs exclusive farebox receiver for secure transfer of currency from fare collection equipment to vault.
- Fully mechanical operation (no electricity required).
- Unaffected by EMI from bus equipment and other reaction electrical equipment in vicinity.
- Weather, oil and diesel fuel-resistant.
- Stand-alone structures with no additional supports or overhead enclosures required.
- Options include security alarm hook-ups, electronic monitoring, cashbox and bin ID system.
- Modular construction simplifies repairs and permits easy, cost-efficient upgrading regardless of when units are purchased.
- Designed to perform as part of a fully integrated system, the vaults work with all generations of Genfare fareboxes from CENTSaBILL and Transview to Odyssey® and Fast Fare®.

RESPONDING TO AGENCY SECURITY NEEDS

Why GENFARE vault equipment?

- Special theft prevention interlock system only operates when a specific authorized sequence of events is followed.
- Heavy-duty reinforced steel mobile bins can be safely moved by material handling equipment even when filled to capacity.
- Separate storage chambers maintain separation of coins and bills.
- Optional security measures include cashbox and bin ID system, electronic monitoring and alarm connection.

Mobile Vault:

CAPACITY & WEIGHT

	Capacity		Weight
Coins	\$12,500	Empty	1,000 lbs.
Bills	\$12,500	Full	2,200 lbs.
Total	\$25,000 street money		

Stationary Vault:

CAPACITY & WEIGHT

	Capacity		Weight
Coins	\$10,000	Empty	460 lbs.
Bills	\$10,000	Full	1,200 lbs.
Total	\$20,000 street money
