

REVENUE COLLECTION EQUIPMENT

Pacemaker Farebox

The Pacemaker is a high security farebox designed specifically for those applications where there is very little floor space available for farebox mounting, such as in vans and other small buses.

The Pacemaker utilizes a single slot for the acceptance of coins, bills, and tickets along with an 180° viewing window for fare verification. Emphasizing security, the Pacemaker automatically closes the coin/bill acceptor slot to prevent pilfering, is equipped with high security locks, and is manufactured with reinforced high gauge stainless steel.

Low cost, low maintenance, reduced fare abuse and virtually maintenance free, the Pacemaker is engineered to provide many years of reliable service.

Highlights:

Fare Acceptance

- Coins: All
- Tokens: All
- Paper: All bills and tickets

Keys and Locks

- Farebox Security Key: Bolt Lock
- Farebox Revenue Key: High Security with Stainless Steel Cam
- S/A Mounting Bracket Security: Change Lock

Construction

- Cabinet: Stainless Steel (.060" Thk., 16 Gauge)
- Castings: Black Epoxy, Coated Aluminum
- Inspection Window: 3/16" Polycarbonate

RESPONDING TO PAYMENT NEEDS

Why Pacemaker?

The Pacemaker farebox is designed for special limited service applications where space is at a premium and there is a requirement for the secure collection of coins and dollar bills.

The Pacemaker is an integrated unit which serves both as farebox and cashbox. The upper portion of the casting has a fare acceptance area with an anti-pilfering coin/bill slot, 180° inspection window, and tip plate mechanism. When the handle is pressed to tip the plate, the entry slot is automatically closed.

The collected revenues are removed from the farebox by means of a reinforced door on the bottom of the farebox protected by a high security lock. The unit can either be on an existing standard vertical bus grab rail or on an optional free standing pole.

The Pacemaker is able to accept all denominations of coins and tokens, as well as all bills in the full open position. Its unique design is able to hold up to \$100 in dollar bills and \$350 in coins, making it ideal for small bus operations or special service applications.

Mounting Requirements:

- Stainless-Steel S/A Mounting Bracket for Mounting to Standard Bus Grab Rail or S/A Free Standing Pole.
- Optional: Black Epoxy Coated S/A Free Standing Pole for Mounting Farebox to Floor.
